

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Revision date: 06.01.2022
Date of entry into force: 06.01.2022

Version: 8
Replaces version: 7

Blanisol-SB-clean

This is the English translation of the German SDS (for Germany).

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name: Blanisol-SB-clean

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the mixture:

Acid-based cleaner with rinse aid for bedpan washers
For professional use

1.3 Details of the supplier of the safety data sheet

Department providing information: Department of Science and Technology Berlin

E-mail: kontakt@lysoform.de

Telephone: +49 30 77992-216

Supplier (distributor):

Lysoform Dr. Hans Rosemann GmbH
Kaiser-Wilhelm-Str. 133
D-12247 Berlin
Tel.: +49 30 / 77992-0
Fax: +49 30 / 77992-219
www.lysoform.de

1.4 Emergency telephone number Germany

Munich toxicological department
Klinikum rechts der Isar
Ismaninger Str. 22, 81675 Muenchen
Tel.: +49 89 19240
Fax: +49 89 4140-2467

Section 2: Hazards identification

2.1 Classification of the substance or mixture

CLP classification (EG) Nr. 1272/2008:
Eye Dam. 1 H318

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Revision date: 06.01.2022
Date of entry into force: 06.01.2022

Version: 8
Replaces version: 7

Blanisol-SB-clean

2.2 Label elements

Symbol und signal word:

Danger

Hazard statements:

H318 Causes serious eye damage.

Precautionary statements:

P280 Wear protective gloves and eye protection.

P305 + IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

P351 + present and easy to do. Continue rinsing.

P338

P310 Call doctor immediately.

Hazardous ingredient for labelling:

Citric acid and Isotridecanol ethoxylated

2.3 Other hazards

The ingredients (from 0.1%) do not meet the criteria for classification as PBT or vPvB and no endocrine disrupting properties are known.

Section 3: Composition/information on ingredients

3.1 Substances

This product is a mixture.

3.2 Mixtures

Chemical characterization:

Citric acid

CAS-No: 5949-29-1 REACH-Reg.no: --

Quantity : 8 - 12 %

Eye Irrit. 2 H319 Causes serious eye irritation.

Isotridecanol ethoxylated

EG-Nr.: 931-138-8 CAS-Nr.: 69011-36-5 REACH-Registrierungs-nr.: No (Polymer)

Quantity : 8 - 10 %

Acute Tox. 4 H302 Harmful if swallowed.

Eye Dam. 1 H318 Causes serious eye damage.

Labelling for contents according to Regulation (EC) Nr. 648/2004

Nonionic surfactants: 5 - 15 %, Citric acid 5 - 15 %

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Revision date: 06.01.2022
Date of entry into force: 06.01.2022

Blanisol-SB-clean

Section 4: First aid measures

4.1 Description of first aid measures

Always consult a doctor if symptoms persist. Show the Safety Data Sheet, container or label.

Inhalation:

Supply fresh air.

Skin contact:

Take off all contaminated clothing immediately. Rinse skin with plenty of water.

Eye contact:

Rinse opened eye for several minutes with plenty of drinking water and seek medical advice immediately.

Ingestion:

Do not induce vomiting. Rinse mouth with drinking water and give plenty of water to drink.

4.2 Most important symptoms and effects, both acute and delayed

Mucosal irritation, malaise

4.3 Indication of any immediate medical attention and special treatment needed

No information

Section 5: Firefighting measures

5.1 Extinguishing media

CO₂, powder, water spray or foam.

5.2 Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gas may develop:

For example: Carbon monoxide and carbon dioxide

5.3 Advice for firefighters

Wear self-contained breathing apparatus.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear suitable protective gloves and protective clothing. Ensure adequate ventilation.

6.2 Environmental precautions

Do not allow to reach sewage system / surface or ground water.

6.3 Methods and material for containment and cleaning up

Wipe up with absorbent material (cloth, fleece, sand, universal binders).

Larger quantities: Apply suction cleaning.

6.4 Reference to other sections

Safe handling (section 7), personal protective equipment (section 8) and disposal considerations (section 13)

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Revision date: 06.01.2022
Date of entry into force: 06.01.2022

Version: 8
Replaces version: 7

Blanisol-SB-clean

Section 7: Handling and storage

7.1 Precautions for safe handling

Ensure good ventilation / exhaustion at the workplace.

Notes on general hygiene measures at the workplace:

Wash hands before break and after work. Keep away from food. Take off all contaminated clothing immediately. Avoid contact with eyes.

7.2 Conditions for safe storage, including any incompatibilities

Store cool but frost-free, well ventilated, dry and out of reach of children.

Store in the original container.

Further information about storage conditions

Keep away from heat and direct sunlight. Keep separate from food.

Storage class: 12 (TRGS 510) for Germany

7.3 Specific end use(s)

No specific end use known.

Section 8: Exposure controls/personal protection

8.1 Control parameters

No

8.2 Exposure controls

General health and safety measures

Keep away from foodstuff, beverages and feed. Take off all contaminated clothing immediately. Wash hands before breaks and at end of work. Avoid contact with skin and eyes.

Respiratory protection

Not required

Hand protection

Impermeable gloves. The wearing of liquid-tight gloves, without changing over four hours daily, is to be regarded as stressful and may not be a permanent measure.

Penetration time of glove material

The resistance of gloves is dependent on many features (material, layer thickness, manufacturer, temperature, stress and duration of contact) and not predictable in advance. Each user has to test the resistance of the gloves for his personal use. Penetration times according to EN 374 are specified by manufacturers and provide guidance for the comparison of gloves.

Material recommendations

Nitrile rubber

Butyle rubber

Skin protection

In order to prevent skin irritations in the professional field, the following is - regardless of the actual contact with disinfectants - recommended:

- Fast skin penetrating care cream in between if needed.
- A greasy cream after washing at the end of work or before work breaks.

Eye / face protection

When handling the concentrated product (decanting), use tight-fitting eye protection.

Safety Data Sheet

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

- Physical state:	Liquid
- colour:	Clorless
Odour:	Not determined
Odor threshold:	Not determined
pH (50 g/l H ₂ O) at 20 ° C:	ca. 2
Melting point:	Not determined
Initial boiling point / boiling range:	Not determined
Flash point:	> 70 °C
Evaporation rate:	Not determined
Flammability:	Not determined
Explosion limits in air:	Not determined
Vapour pressure:	Not determined
Vapour density, relative (air = 1):	Not determined
Density at 20 ° C:	ca. 1.0 g/cm ³
Solubility in water:	Any
Partition coefficient n-octanol / water:	For a mixture not applicable.
Auto-ignition temperature:	Not determined
Decomposition temperature:	Not applicable, no known decomposition
Viscosity:	Not determined
Explosive properties:	The product is not explosive.
Oxidising properties:	Not determined

9.2 Other information

Further physical and chemical data have not been determined.

Section 10: Stability and reactivity

10.1 Reactivity

No hazardous reactions when stored and handled as described.

10.2 Chemical stability

No decomposition if stored and used as described.

10.3 Possibility of hazardous reactions

No hazardous reactions if used as described.

10.4 Conditions to avoid

See section 7

10.5 Incompatible materials

No incompatible materials known.

10.6 Hazardous decomposition products

No decomposition if used as described.

Safety Data Sheet

Blanisol-SB-clean

Section 11: Toxicological information

11.1 Information on toxicological effects

The active compounds have been extensively studied with regard to the toxic profile. The exposure is safe if handled as prescribed. In consideration of the mixture no deviant results are expected. The mixture was therefore not examined in all categories. For toxicological effects use the information on relevant hazardous substances.

11.1.1 For the mixture: No data available

11.1.2 For the relevant substance:

Citric acid

Oral LD₅₀ rat: 6730 mg/kg/BW

Isotridecanol ethoxylated

LD₅₀ rat oral: > 300 - 2.000 mg/kg

Section 12: Ecological information

The mixture was not tested for certain effects. For information use the information on the relevant hazardous substance listed below.

12.1 Toxicity

Citric acid

LC₅₀/48 h: 760 mg/l (Golden ide)

LC₅₀/96 h: 1000 mg/l (Daphnia magna)

LC₅₀/96 h: 1000 mg/l (Fathead minnow)

Isotridecanol ethoxylated

LC₅₀ (96 h) Cyprinus carpio: 1 - 10 mg/l; OECD 203

EC₅₀ (72 h) Desmodemus subspicatus: 1 - 10 mg/l; OECD 202

12.2 Persistence and degradability

Citric acid

Biodegradable. The product itself and its degradation products are non-toxic.

Isotridecanol ethoxylated

Easily biodegradable: > 60 %; 28 d; aerob; OECD TG 301 B

12.3 Bioaccumulative potential

Citric acid

No data available

Isotridecanol ethoxylated

Bioaccumulation is unlikely. (Literature value)

12.4 Mobility in soil

Citric acid

No data available

Isotridecanol ethoxylated

Koc:> 5000 immobile, adsorption on the soil (literature)

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Blanisol-SB-clean

12.5 Results of PBT and vPvB assessment

The mixture does not contain any substances that are assessed as PBT or vPvB.

12.6 Endocrine disrupting properties

Endocrine disrupting properties for the environment are not known.

12.7 Other adverse effects

The mixture is classified as water hazard class 1 (by German AwSV).

Section 13: Disposal considerations

13.1 Waste treatment methods

Treatment of the mixture

Disposal in compliance with local regulations. Waste should not be disposed of via wastewater.

Treatment of contaminated packaging

Completely emptied containers can be recycled.

Waste code according to AVV

07 06 01 for the product
15 01 02 for the primary packaging

Relevant EU or other regulations

German law: KrW-/AbfG (Kreislaufwirtschafts- und Abfallgesetz)

Section 14: Transport information

No dangerous good in terms of transport regulations

Section 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU-regulations:

1907/2006 REACH / 1272/2008 CLP GHS / 98/24/EG Risks related to chemical substances / 648/2004 Detergents /

Other information:

Medical device class I CE 0482 according to German Medical Devices Act

15.2 Chemical safety assessment

For this mixture no chemical safety assessment has been carried out.

Safety Data Sheet

Replaces version: 7

Blanisol-SB-clean

Section 16: Other information

Changes since the last version

Version 7: First English version / Version number of the SDS is similar to the German SDS
Version 8: New company logo

Literature and data sources

TRGS / Gestis / professional associations / MSDS of ingredients

Methods in accordance with Article 9 of Regulation (EC) no. 1272/2008 used to evaluate the information for the purpose of classification.

Classification was based on the components

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product with regard to the safety requirements. The information should not be regarded in any way as a description of the nature of the goods (product specification). Any agreed property or the suitability of the product for a specific purpose can not be derived from our information in the Safety Data Sheet. We will advise you whether and under what circumstances, the preparation is suitable for a defined purpose. Any proprietary rights and existing laws and regulations must be observed by the recipient of our product (responsibility of the recipient).
